

THE DATASHEET OF S16B-PHDSS

PHD CONNECTOR

Disconnectable Crimp style connectors

This is a 2.0mm (.079") pitch, crimp style, double-row, wire-to-board connector. It is designed to meet the demand for high-density and low-profile connection.

Features

• Compact

2.0mm (.079") pitch connector, 8.8mm (.346") in height after mounting and 5.0mm (.197") in width. This compact design meets the demand for high-density connection.

• Reliable contacts

The box contact supplies stable contact performance even under conditions of vibration, distortion, low voltage or low current.

• Fully shrouded header

The header is fully shrouded, having walls on all four sides to prevent improper mating and the intrusion of flux and other contaminants.

Specifications

- Current rating: 3A AC, DC (AWG#22)
- Voltage rating: 250V AC, DC
- Temperature range: -25°C to +85°C
(including temperature rise in applying electrical current)
- Contact resistance: Initial value/10m Ω max.
After environmental testing/20m Ω max.
- Insulation resistance: 1,000M Ω min.
- Withstanding voltage: 800V AC/minute
- Applicable wire: AWG #28 to #22
- Applicable PC board thickness: 1.6mm(.063")
- * Contact JST if Lead-Free product is required.
- * Refer to "General Instruction and Notice when using Terminals and Connectors" at the end of this catalog.
- * Contact JST for details.

PC board layout (viewed from soldering side) and Assembly layout

- Note:
1. Tolerances are non-cumulative: ± 0.05 mm ($\pm .002$ ") for all centers.
 2. Hole dimensions differ according to the kind of PC board and piercing method. If printed circuit boards made of hard material are used, the hole dimensions should be larger. The dimensions above should serve as a guideline. Contact JST for details.
