

Low-Charge Injection, 16-Channel, High-Voltage Analog Switch

Features

- High-Voltage CMOS technology for high performance
- 16-channel high voltage analog switch
- 3.3V input logic level compatible
- 20 MHz data shift clock frequency
- Very low quiescent power dissipation (-10 μ A)
- Low parasitic capacitance
- DC to 50 MHz small signal frequency response
- -60dB typical OFF-isolation at 5.0 MHz
- CMOS logic circuitry for low power
- Excellent noise immunity
- Cascadable serial data register with latches
- Flexible operating supply voltages
- Integrated bleed resistors on the outputs (HV2701 only)

Applications

- Medical ultrasound imaging
- NDT metal flaw detection
- Piezoelectric transducer drivers
- Optical MEMS modules

Description

HV2601/HV2701 are low-charge injection, 16-channel, high-voltage analog switch integrated circuits (ICs). These devices are designed for use in applications requiring high-voltage switching controlled by low-voltage control signals, such as medical ultrasound imaging and other piezoelectric transducer drivers. HV2701 has integrated bleed resistors which eliminate voltage build-up on capacitive loads such as piezoelectric transducers.

These ICs shift input data into a 16-bit shift register that can then be retained in a 16-bit latch. To reduce any possible clock feed-through noise, the latch enable bar should be left high until all bits are clocked in. Data is clocked in during the rising edge of the clock. Using High-Voltage CMOS technology, this device combines high-voltage, bilateral DMOS switches and low power CMOS logic to provide efficient control of high voltage analog signals.

The device is suitable for various combinations of high voltage supplies, e.g., V_{PP}/V_{NN} : +40V/-160V, +100V/-100V, and +160V/-40V.

Package Types

**42-Ball Bumped Die
(Top View)**

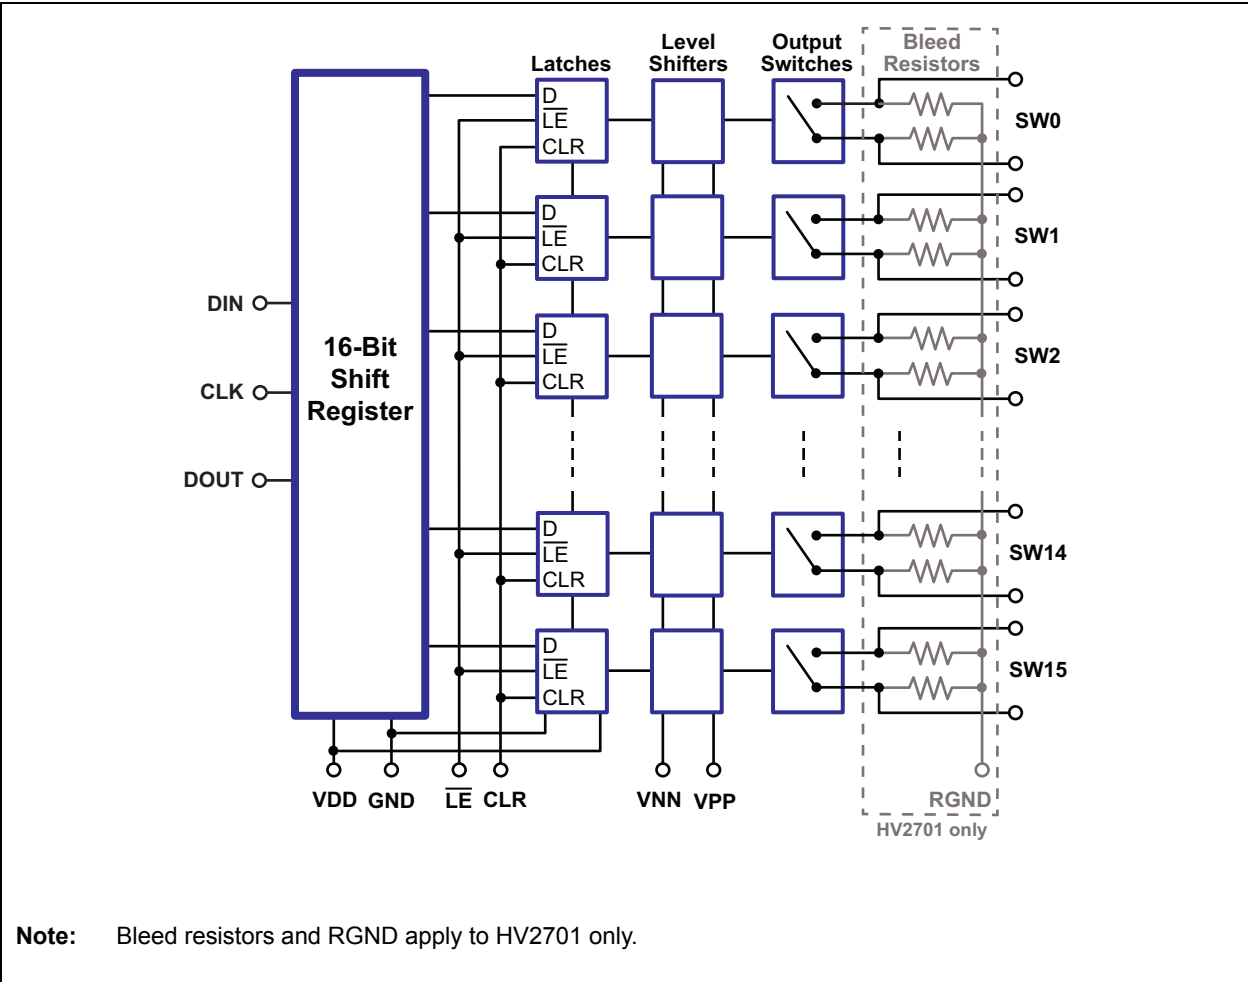

**48-Lead LQFP
(Top View)**

See [Table 2-1](#) and [Table 2-2](#) for pin information

HV2601 / HV2701

Block Diagram

1.0 ELECTRICAL CHARACTERISTICS

ABSOLUTE MAXIMUM RATINGS†

V_{DD} logic supply	-0.5V to +7.0V
$V_{PP} - V_{NN}$ differential supply	220V
V_{PP} positive supply	-0.5V to $V_{NN} + 200V$
V_{NN} negative supply	+0.5V to -200V
Logic input voltage	-0.5V to $V_{DD} + 0.3V$
Analog signal range	V_{NN} to V_{PP}
Peak analog signal current/channel	3.0A
Storage temperature	-65°C to +150°C
Power dissipation 42-Ball Bumped Die	1.5W
Power dissipation 48-Lead LQFP	1.0W

† **Notice:** Stresses above those listed under “Maximum Ratings” may cause permanent damage to the device. This is a stress rating only and functional operation of the device at those or any other conditions above those indicated in the operational listings of this specification is not implied. Exposure to maximum rating conditions for extended periods may affect device reliability.

RECOMMENDED OPERATING CONDITIONS (Notes 1 – 3)

Symbol	Parameter	Value
V_{DD}	Logic power supply voltage	3.0V to 5.5V
V_{PP}	Positive high voltage supply	+40V to $V_{NN} + 200V$
V_{NN}	Negative high voltage supply	-40V to -160V
V_{IH}	High level input voltage	$0.9V_{DD}$ to V_{DD}
V_{IL}	Low level input voltage	0V to $0.1 V_{DD}$
V_{SIG}	Analog signal voltage peak-to-peak	$V_{NN} + 10V$ to $V_{PP} - 10V$
T_A	Operating free air temperature	0°C to 70°C

Note 1: Power up/down sequence is arbitrary except GND must be powered-up first and powered-down last.

2: V_{SIG} must be V_{NN} and V_{PP} or floating during power up/down transition.

3: Rise and fall times of power supplies V_{DD} , V_{PP} , and V_{NN} should not be less than 1.0msec.

HV2601 / HV2701

DC ELECTRICAL CHARACTERISTICS

Electrical Specifications: Over recommended operating conditions unless otherwise noted.											
Parameter	Symbol	0°C		25°C			70°C		Units	Conditions	
		Min	Max	Min	Typ	Max	Min	Max			
Small signal switch ON-resistance	R_{ONS}	-	30	-	26	38	-	48	Ω	$I_{SIG} = 5.0 \text{ mA}$ $V_{PP} = +40V$	
		-	25	-	22	27	-	32		$I_{SIG} = 200 \text{ mA}$ $V_{NN} = -160V$

* This dimension is not specified in the JEDEC drawing.

Drawings are not to scale.

APPENDIX A: REVISION HISTORY

Revision A (December 2015)

- Converted Supertex Doc #s DSFP-HV2601 and DSFP-HV2701 to Microchip DS20005391B.
- Combined HV2601/HV2701 into one document.
- Revised **Section 4.0 “Packaging Information”**
- Removed package GA from the data sheet.
- Made minor text changes throughout.

Revision B (March 2016)

- Moved **“Block Diagram”** to page 2 and made a minor change for clarity.
- Removed Confidential status from document.

HV2601 / HV2701

PRODUCT IDENTIFICATION SYSTEM

To order or obtain information, e.g., on pricing or delivery, refer to the factory or the listed sales office.

<u>PART NO.</u>	<u>XX</u>	-	<u>X</u>	-	<u>X</u>
Device	Package		Environmental		Media Type
Device:	HV2601 =	16-Channel HV Analog Switch			
	HV2701 =	16-Channel HV Analog Switch with Bleed Resistors			
Package:	BD =	42-Ball Bumped Die			
	FG =	48-lead LQFP			
Environmental	G =	Lead (Pb)-free/ROHS-compliant package (not used for BD packages)			
Media Type:	(blank) =	250/Tray for FG package			
	M931 =	1000/Reel for FG package			
	M936 =	2500/Reel for BD package			

Examples:

- a) HV2601FG-G: 48-lead LQFP package, 250/Tray
- b) HV2601FG-G-M931: 48-lead LQFP package, 1000/Reel
- c) HV2701BD-M936: 42-ball Bumped Die, 2500/Reel

Note: HV2601BD and HV2701BD are RoHS-compliant products

Note the following details of the code protection feature on Microchip devices:

- Microchip products meet the specification contained in their particular Microchip Data Sheet.
- Microchip believes that its family of products is one of the most secure families of its kind on the market today, when used in the intended manner and under normal conditions.
- There are dishonest and possibly illegal methods used to breach the code protection feature. All of these methods, to our knowledge, require using the Microchip products in a manner outside the operating specifications contained in Microchip's Data Sheets. Most likely, the person doing so is engaged in theft of intellectual property.
- Microchip is willing to work with the customer who is concerned about the integrity of their code.
- Neither Microchip nor any other semiconductor manufacturer can guarantee the security of their code. Code protection does not mean that we are guaranteeing the product as “unbreakable.”

Code protection is constantly evolving. We at Microchip are committed to continuously improving the code protection features of our products. Attempts to break Microchip's code protection feature may be a violation of the Digital Millennium Copyright Act. If such acts allow unauthorized access to your software or other copyrighted work, you may have a right to sue for relief under that Act.

Information contained in this publication regarding device applications and the like is provided only for your convenience and may be superseded by updates. It is your responsibility to ensure that your application meets with your specifications. MICROCHIP MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND WHETHER EXPRESS OR IMPLIED, WRITTEN OR ORAL, STATUTORY OR OTHERWISE, RELATED TO THE INFORMATION, INCLUDING BUT NOT LIMITED TO ITS CONDITION, QUALITY, PERFORMANCE, MERCHANTABILITY OR FITNESS FOR PURPOSE. Microchip disclaims all liability arising from this information and its use. Use of Microchip devices in life support and/or safety applications is entirely at the buyer's risk, and the buyer agrees to defend, indemnify and hold harmless Microchip from any and all damages, claims, suits, or expenses resulting from such use. No licenses are conveyed, implicitly or otherwise, under any Microchip intellectual property rights unless otherwise stated.

Microchip received ISO/TS-16949:2009 certification for its worldwide headquarters, design and wafer fabrication facilities in Chandler and Tempe, Arizona; Gresham, Oregon and design centers in California and India. The Company's quality system processes and procedures are for its PIC® MCUs and dsPIC® DSCs, KEELOQ® code hopping devices, Serial EEPROMs, microperipherals, nonvolatile memory and analog products. In addition, Microchip's quality system for the design and manufacture of development systems is ISO 9001:2000 certified.
