Pre-Crimped Leads

Molex's range of pre-crimped leads offers a simple, cost-effective solution for pre-production and prototype requirements. These leads are offered in female-to-female and male-to-male configurations in lengths of 150.00mm and 300.00mm

Features and Advantages

Pre-crimped and fully tested cables	Decrease time to market
Available in 150mm and 300mm lengths	Works well for all prototype and pre-production requirements
Leads crimped on both ends	Allows for wire-to-wire applications and when cut in half, wire-to-board applications
UL listed cables	Assures high-quality approved materials
Available for most popular Molex families	Helps customers choose the right connector before investing in application tooling
