

THE DATASHEET OF
9G0612S4002

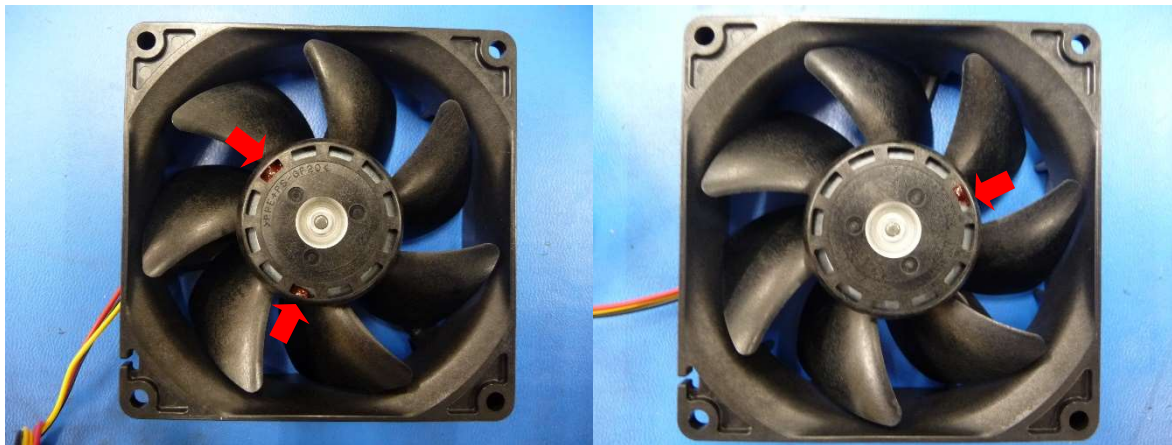

To: Digi-Key Electronics

Standard construction for rotor balancing

Due to the heavy weight construction of the impeller top, a brown compound may be added for rotor balancing purposes as shown below.

Reference model: 9G0924A201

Fan #1

Fan #2

Applied position and quantity will vary for each fan based on rotor unbalancing condition.

Sincerely,

Hide Obayashi
Application Engineer
