

THE DATASHEET OF ACCRF2EKN

Fixing Accessories for Wirewound Resistors Equipped with AN Collars Suitable for RW - RA - RSSD - RSO

These 2E double right-angle brackets are designed to fix resistors without providing electrical contact. As they are fitted to resistors with fixing insulated connections, they can be mounted on uninsulated panels.

FEATURES

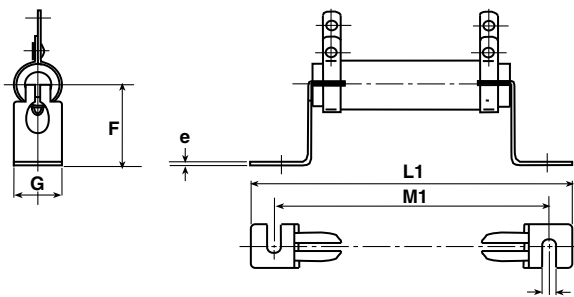

- They are available in three versions:
 - Bracket 2E N Shape
 - Bracket 2E U Shape (restricted space)
 - Brackets 2E T or 2E Z shape designed for models of Ø 40 mm and 50 mm
- The brackets are metal, and are corrosion-resistant
- Material categorization: For definitions of compliance please see www.vishay.com/doc?99912
