

T-1 3/4 Ultrabright LED Lamps

DESCRIPTION AND FEATURES

The Ultrabright HLMP3X50 series are direct pin for pin replacements for Hewlett Packard's HLMP3X50 series. These LED lamps provide a very narrow viewing angle in a clear tinted non-diffused package and are excellent for small area backlighting. A pale tint aids in identification. The High Efficiency Red and Yellow lamps are produced with GaAsP/GaP and the High Efficiency Green lamp is produced with GaP/GaP. All feature an 80 mcd minimum luminous intensity.
