Storage temperature	T_{stg}	-65	-	150	°C

1) V_{ESD} according to IEC61000-4-2 (R = 330 , C = 150 pF discharge network)

2) I_{PP} according to IEC61000-4-5 (t_p = 8/20 µs)

Attention: Stresses above the max. values listed here may cause permanent damage to the device. Exposure to absolute maximum rating conditions for extended periods may affect device reliability. Maximum ratings are absolute ratings; exceeding only one of these values may cause irreversible damage to the integrated circuit.
